SHAWNEE, OKLAHOMA

The Vegetable Garden

Our catalogue describes all of the best standard varieties and the newer kinds that have become popular.

It is surprising how small a piece of ground is needed to supply a family of average size with fresh vegetables through the whole season. A piece of ground, say, thirty feet by forty feet, will do it. In these days of high prices there are many sorts of vegetables that it more than pays to grow at home. In comparison with the ridiculously small cost, the return surely does warrant the effort.

Eclipse Brand Tested Bulk Garden Seed

In offering you Bulk Garden seed direct from the growers after being tested for germination in our own laboratory, we feel that you are buying the highest possible values that can be obtained. Twenty years experience has made it possible for us to buy only the seeds grown by the most reliable growers in this and foreign countries and this experience is passed on to you in the form of high grade, high germinating, fresh, and clean seed. No better quality can be bought at any price. Look over this list and compare the prices with other reliable seedsmen.

Special Notice

This folded price list is different from the catalogue we have heretofore sent you, but let us tell you why: We realize that you (our customer) as well as we, have had a hard time the past year to pull through and make both ends meet. Catalogues cost a lot of money and we decided that a cheaper but just as efficient price list would serve you and us as well, and allow us to give you that much more in our high grade seeds. We will all be better prepared after matters have adjusted themselves to afford something better. If you find that you are in need of some advice regarding seeds just drop us a line, and we will give you the information that we have obtained from twenty years experience in selling and growing seed in Oklahoma. We have grown to be one of the largest seed houses in the state and our trade reaches all the surrounding states. We are larger than ever this year with the most complete seed house and equipment in the Southwest. You can't keep us from growing for we satisfy our customers in both price and quality, and they come back and bring new ones with them every year. You know our method? Well here it is: If you order anything from us that is not satisfactory after receipt and examination of same, return it to us and all charges will be paid and your money refunded. We don't want a customer's money unless he feels that he has received its value in quality and service.

CLARKE & KELLER SEED STORE

CLARKE & KELLER'S ECLIPSE BRAND FIELD SEED

All Field Seed have a tag attached giving Purity and Germination tests to comply with the Oklahoma State Seed Law. Besides Field Seed listed we carry Spring and Winter Barley, Texas Red Rust Proof Oats, Popcorn, Fertilizers, Root's Beekeeper's Supplies, Planet Jr. Garden Tools, besides hundreds of articles carried by a first class Seed Store.

ALFALFA

The Money Crop

Oklahoma produces the finest Alfalfa seed grown. We buy only the best matured seed. Without doubt, Alfalfa is the greatest forage crop grown in Oklahoma. The farm is rare that will not grow it and the planter is not realizing what he should from his land if he has not a patch on his farm. Next to Cotton it produces more money for the Oklahoma farmer than any other crop. We will send you samples and firm prices on application.

SUDAN GRASS

This is a wonderful grass, successful everywhere. It grows quick, being cut in Oklahoma three or four times a season. It will double the capacity of your fields for pasture purposes. All stock like it. It is high in protein, easily digested, cures quickly, and in every way is a superior food. Seed costs less for sowing. Grows on poor land. Ask for prices.

SWEET CLOVER

Sweet clover resembles Alfalfa both in growth and food value. It is very hardy, makes a rank growth of plant and root, and stands the winters like Alfalfa. It grows on the poorest soils, and as a soil builder is unexcelled. It seeds itself and is easily eradicated by plowing. We handle the White Blooming variety which is the best. We have nice stocks at lowest possible prices. Also stock of the Yellow Blooming varieties. Write us for samples and prices.

GERMAN MILLET

We grow and have grown, this variety of Millet and take pride in offering as good seed as can be found in any first class seed house. We keep it pure, thoroughly recleaned and graded, and sack it in heavy Jute Bags for safe shipment. Millet is one of the quickest crops grown. Sow on stubble ground or early if desired. Lowest market price.

TIMOTHY, KENTUCKY BLUE GRASS, BERMUDA GRASS, ORCHARD GRASS and RED TOP GRASS seeds are among our stocks and we will name attractive prices on any of our Grass Seeds.

SACCHARINE SORGHUMS

Cane or Sorghum is the most reliable forage crop grown in the southwest. It stands drouth equal to Kaffir and produces a superior feed. No land is too poor to grow a good crop of cane hay. All stock relish it. It produces fat and milk and requires no more work than corn to produce. We handle hundreds of thousands of pounds of the best seed that can be produced. Market price.

CANE SEEDS

We can furnish the readers of this catalogue the highest possible quality of the different varieties of cane seed. We carry:

RED TOP OR SHUMAC
EARLY ORANGE
EARLY BLACK AMBER
RED AMBER
TEXAS SEEDED RIBBON
JAPANESE RIBBON
HONEY DRIP

and will make the very lowest prices. Ask us about cane seed.

NON SACCHARINE SORGHUMS

There should be more Kaffir, Milomaize, etc., planted in the south every year. The feed item on the farm is the most serious problem you have and buying feed makes a big hole in your bank account. Kaffir, Milomaize, Feterita, Shrock, Shallu, and Red Kaffir are prolific growers in the poorest soil and on heavy soil grows enormous crops. We carry the purest seed, thoroughly cleaned and graded at the samples.

lowest market prices. Ask us for prices and

SEED CORN

Hand tipped, hand shelled and cleaned, and graded on the best machinery made for the purpose. We furnish pure Northern seed for our growers and from this seed, thoroughly acclimated, we sell you as good seed corn as can be bought. We have in stock the varieties best adapted to the Southwest.

IOWA SILVER MINE
IOWA GOLD MINE
REID'S YELLOW DENT
WHITE WONDER
NINETY DAY RED OR INDIAN CHIEF
BOONE COUNTY WHITE
BLOODY BUTCHER
CALICO
MEXICAN JUNE

We have in this catalogue listed only the standard seeds. Besides the seeds listed, we carry everything found in a first class seed store. We carry complete lines of Conkey's Poultry Supplies, Dr. Hess Stock and Poultry Supplies, Seneca Stock and Poultry Supplies, sprayers, insecticides, lice and mite killers, fly killer, Rat Corn, poultry markers and leg bands, metal feeders and watering fountains. We are agents for Root Bee Keepers' Supplies and you can buy these goods from us at catalogue prices and save freight.

NOTICE: All quotations are made for immediate acceptance, subject to stocks remaining unsold and confirmation of orders, also stenographic errors and omissions, delays and contingencies beyond our control. While we do everything possible to have all our seeds pure and reliable we give no warranty, expressed or implied, as to description, quality, or productiveness, of any seeds we sell, and will not be in any way responsible for the crop.

SEED WHEAT

SEED RYE

SEED BARLEY

SEED OATS

Spring and Fall Varieties

Carefully selected
Carefully cleaned
Carefully graded
Carefully sacked

Like all seeds we are as careful with these heavy seeds as with the smallest package we send out. We always keep in mind that the customer must be satisfied.

PEANUTS

We carry stocks of Spanish, Tennessee Red, and Virginia White peanuts for seeding purposes. Ask for prices.

DWARF ESSEX RAPE

Drill or broadcast. It is good for hogs, sheep, and chickens. It stands frost, makes a heavy yield, and is good for the soil. Sow like Turnips, six pounds per acre. Price per pound 20c

SUNFLOWER SEED

Don't go without shade. Sunflowers furnish shade and feed. Easy and quick to grow. Price, per pound 20c.

COW PEAS VELVET BEANS SOY BEANS

All growers are familiar with these high valued feed crops. They are good for man or beast, high in protein and a wonderful fertilizer. The new Oceola Velvet Bean, the Mammoth Soy Bean, and the old reliable Whipporwill Cow Peas are the favorite varieties. We carry all varieties of these seed.

In growing these crops you are not only growing a high protein feed but building up your soil. Ask for prices.

CLOVERS

Few Clovers are grown in Oklahoma but we carry a stock of Alsike Clover, Lespedeza or Japan Clover, White Dutch Clover, and Red Clover. We can make you as low prices as any seed house on any of the above.

BUCKWHEAT

Have you Bees? Sow Buckwheat, a heavy honey producer. Price, per pound 10c.

Read This—It is Vital to You

ACALA NO. 5 COTTON SEED

We have found the "ACALA No. 5" to be producing a greater yield per acre, a higher ginning percentage and a much greater length of lint than any standard variety heretofore grown in this state. As a proof of these statements we have numerous instances of the field average ginning forty per cent lint and averaging one and a half bales to the acre. As this staple runs from 1 1-16 to 1 3-16, you can readily understand why it commands a high market value and will pay the farmer better than the slow selling shorter staple varieties. We have a record of one field planted May 12th, which had quit blooming and was fully fruited by the first week in September and it is estimated that this field will run a full bale and a half to the acre.

The seed we are offering is absolutely pure and from fields where special selection was given and ginned by a gin which on certain days runs nothing but the Acala cotton. If every seed was saved in Oklahoma this year and properly distributed there would be only seed enough to plant one-fourth of this state's crop the coming season. From its overwhelming success in making larger yields, better staple and bringing a higher price on the market all the time, there will be an enormous demand for the seed the coming year that cannot be met.

As our supply of this seed is limited we urge that all orders be placed early for it is certain that there will not be enough of the genuine true type seed to supply the demand.

Before buying your cotton seed for the coming season let us send you samples and quote you price on this wonderful cotton.

IMPORTANT!

Cheap seeds are dear at any price and a losing investment.

CLARKE & KELLER'S

ECLIPSE BRAND, TESTED and CLEANED SEEDS are equal in every way to the best that can be produced; no better can be bought at any price.

OUR TERMS ARE CASH, F. O. B. SHAWNEE

We carry large stocks and know what you want. Our twenty years experience in the business, with an iron clad rule to be strictly honest with our customers places us in a position to serve you as well or better than most dealers who have not been on the ground to study the needs of the planters of this section.

Soliciting your orders with our promise that we will give you honest goods at honest prices.

Yours for better production,

Clarke & Keller Seed Store
SHAWNEE, OKLAHOMA

When ordering seeds shipped by Parcel Post, be sure to enclose money to cover the cost of shipment. The Zone and rate of table below will assist you to figure the cost of sending.

Parcel Post Zone Rates

A glance at the map will show the zone you are in, measuring from Shawnee. If in doubt, ask your postmaster. The Parcel Post rates are as follows:

ZONE	DISTANCE FROM SHAWNEE	FIRST POUND OR FRACTION	EACH ADDITIONAL POUNDS OR FRACTION	WEIGHT LIMIT
1.	Within 50 miles.....	5c	1c	70 lbs.
2.	Within 50 to 150 miles.....	5c	1c	70 lbs.
3.	Within 150 to 300 miles.....	6c	2c	70 lbs.
4.	Within 300 to 600 miles.....	7c	4c	50 lbs.
5.	Within 600 to 1,000 miles....	8c	6c	50 lbs.
6.	Within 1,000 to 1,400 miles..	9c	8c	50 lbs.

When figuring the number of pounds weight in your order allow 1 pound extra for packing and sacks, as our seeds are put up net, which means "full weight."
